Myers Cocktail IV \$139

Boost your energy and make up for nutritional deficiencies. This is the IV that started it all. Contains B12, B complex, vitamin C, zinc, calcium and magnesium.

Vitamin C IV \$139+

Powerful health benefits can be achieved including but not limited to: adrenal gland support, consistent levels of energy, skin improvement due to collagen synthesis, increase in bone and tendon strength, overall boost to the immune system and lessened side effects from chemotherapy.

Detox IV \$169.00

This IV supports the flushing and removal of toxins, enhancing your body's natural detoxification pathways. Contains vitamin C, calcium, zinc, trace minerals, B complex, B12, magnesium and glutathione.

Energy Boost IV \$139.00

Get your boost of energy naturally and without the jitters of caffeine. Contains calcium, magnesium, taurine, trace minerals, B5, B6, B12 and B complex.

Hydration IV \$199.00

Rehydrate after an intense athletic event, sickness, or accidental over-indulgence. Contains vitamin C, magnesium, calcium, B6, B5, B complex, zinc, B12 and acetylcysteine.

ADD ONS:

Glutathione \$35

Glutathione, often referred to as "the mother of all antioxidants," is one of the most talked-about supplements in the healthcare industry. It has a range of purported benefits that include enhancing heart, liver, and brain health.

Vitamin C \$20

Added immune and skin boost, 5000mg extra vitamin C

INJECTIONS:

Enhanced Super B injection \$27 (\$200 for 10 pack)

Get your energy boost and support weight loss when combined with MIC diet and exercise. Contains B complex, B12, vitamin C, methionine, inositol, choline and acetyl- l-carnitine.

Glutathione Injection \$40 (\$260 for 10 pack)

Support detoxification pathways and enjoy the health benefits of glutathione with the convenience of an injection.

NAD Injection \$35

Nicotinamide Adenine Dinucleotide injection that has been shown to silence genes that accelerate the aging process. It makes cells resistant to stress, repairs damaged DNA and reduces inflammation. It also boosts brain function, mood, and energy levels. A series of 4 injections is suggested about 3 days apart.
